Fall 2021

Dear Parent or Guardian:

When the fall and winter seasons are here, the possibility of inclement weather and hazardous driving conditions may occur. The District's many hills and narrow streets can pose a serious safety issue during heavy rains, icing and snowstorms that may create extremely slippery road conditions. To ensure the safest transportation for our students we will once again use inclement weather bus stops in areas of major concern. These stops are listed below and will be used for all grade levels when road or weather conditions warrant.

Miller Place School District, in conjunction with our bus company, will decide when to implement inclement weather bus stops. When these inclement weather bus stops are used for school arrivals, they will remain in effect for dismissals as well. Please listen to one of the following radio stations: WALK (97.5 FM or 1370 AM), WRCN Cable TV News 12 Long Island or check the District website <http://www.millerplace.k12.ny.us> so that you will be properly informed. Connect-Ed, the District messaging system, will also be implemented.

We suggest that you plan now to address the use of inclement weather stops with your child. Some suggestions we would offer to parents of young students would be to meet your child at the appropriate drop-off stop, practice walking home with him/her ahead of time, or arrange to have a neighbor closer to the stop meet your child. If we are unable to bring children to these stops due to road conditions, we will return them to their respective schools.

We realize that implementing inclement weather stops causes an inconvenience for some parents, but our first concern must be for the safety of all our students. We appreciate your cooperation and hope this school year will not provide us with too many opportunities to use these stops.

Sincerely,

Colleen V. Card
