Re: Student Emergency Remote Distance Learning Survey

Dear Parents and Guardians,

As you are aware, Governor Cuomo in response to the pandemic has extended the closure of all New York State schools through the end of the 2019-20 school year.

This week marks our fifth week of emergency remote distance learning in the Miller Place School District. We are appreciative of the efforts and engagement of our students, families, and teachers in this new learning environment. We have been responding to informal feedback from students, families, and teachers regarding their distance learning experiences, however we are interested in specific feedback from students to improve our educational practices moving forward with distance learning.

We are asking for your assistance to encourage and/or help your children take a distance learning survey, which will be provided to them as an assignment via Microsoft 365 Teams from their physical education teacher next week. The survey responses will help in advising the District of any potential modifications and enhancements to our distance learning plans. Parents and guardians are encouraged to review the survey with your child and assist younger students so that they may provide their feedback as well. We are hopeful that by completing this survey with your child, you will also have an opportunity to engage with your child about how they are managing their daily schedule and their academic workload.

Thank you for your continued support and your assistance in completing the student distance learning survey.

Respectfully,

Dr. Marianne F. Cartisano
Superintendent of Schools
